PERSONAL DEVELOPMENT

- **Server-side Development with NodeJS, Express and MongoDB**, Duke University   May 2020
  - online course offered through Coursera
  - verified certificate number : `coursera.org/verify/8MLMJ84KAWNT`

- **Programming Foundations with JavaScript, HTML and CSS**, Duke University   Aug 2019
  - online course offered through Coursera
  - verified certificate number : `coursera.org/verify/CP475WSTNQVB`

- **Programming for Everybody**, University of Michigan
  - online specialization course offered through Coursera   Feb 2019
  - verified certificate number : `coursera.org/verify/specialization/36NBTWR3UVSR`

- **Android App Development**, Internshala Trainings   Oct 2018 – Dec 2018
  - verified certificate number : C206CF76-A09A-7EA3-A4D4-6A4B6C6AA91A
  - verification url: `trainings.internshala.com/verify_certificate`

ADDITIONAL ASSETS

- Productively planned and organized various competitions for school festival. Managed three rounds in a competition to analyze the general knowledge, mental ability and coding skills in C/C++. Also handled the participation of more than 20 schools.

- Exhibit strong leadership skills and team-work by participating in Technology and Creativity Teams in a two-day college festival. Created the website, banners and posters for the fest as well as various individual events. Helped with putting up all the props and decorations for the festival. Aided in all the technical issues during the fest.

- Headed the most popular event of the college fest - Hunger Games, a Food Event, as its coordinator. Strategically marketed the event to gather the participation of over a 100 students. Managed the registrations as well as successfully conducted three rounds in the same day.

- Organized Blood Donation Camp in the college in February 2020. Raised awareness about the need and benefits of donating blood. Helped in publicising the camp amongst all my fellow college mates. Managed registrations.
